

# MM40 MEASURING MACHINE

## Bench mounting medium duty wire / rope / hose length measuring machine.

This machine measures the length of wire, cable or rope up to 40mm ( 1.5 inches) diameter.

It has a precision ground 250mm circumference measuring wheel which is directly connected to the mechanical meter.

The top arm of the measuring machine also has an adjustable tension spring. When in use this spring maintains tension on the material between the measuring wheel and the pressure roller below ensuring grip to prevent slippage. Type 'A' is standard.

- Available in four different travel directions A, B, C or D
- Robust construction.
- Powder coated finish.
- Precision measuring wheel.

### Specifications:

Cable diameter range 5-40mm

Measuring wheel circumference 250mm

Maximum speed of travel 500 Metres per min

Standard measurement in Metres and Centimetres (99999.9mtr).

Feet/inches measuring version available on request.

Accuracy +/- 1%

Length 315mm.

Width 220mm.

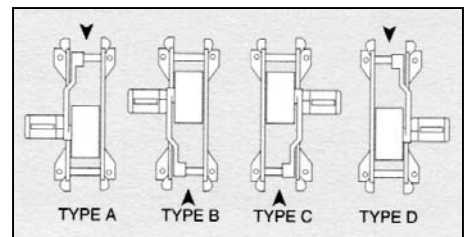

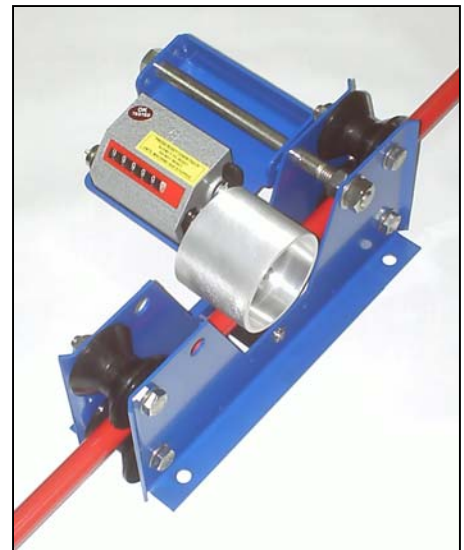

Height (Pivot arm down) 143mm.

Height (Pivot arm up) 248mm.

Net weight 4 Kg

Fixings: Four 11mm holes for M10 bolts spaced 240mm apart lengthways and 77mm widthways.

Packed Gross weight 4.6 Kg box 250 x 250 x 340mm
